COLLEGE PLACEMENT

WWS graduates matriculate to a wide variety of colleges and universities, large and small, public and private. We have a dedicated college advisor who works with families as they navigate the college selection, application, and decision process.

RIGOROUS ACADEMICS

Our curriculum is designed to cultivate students' capacities for critical thinking, paired with the increasing ability to direct one's own path.

Every day starts with a seminar style, in-depth exploration of a topic in mathematics, the sciences, or the humanities supplemented by a range of academic and elective intensive courses.

Academics are supplemented by more advanced work in arts, music, and expressive movement.
